

To The Committee Responsible,

I am writing you today to say that I do not support H.B. No. 6656 - AN ACT CONCERNING LIABILITY INSURANCE FOR FIREARM POSSESSORS OR OWNERS. This is merely an attempt to discourage individuals from owning firearms by making it too expensive. You are blaming the instrument instead of the means by attacking responsible gun owners instead of a broken health care system. By siding with the insurance companies you will show everyone with common sense exactly how out-of-touch you all are and your vote will determine how I, and many others, vote come the next election.
